

A PLACE FOR EVERY MEMORY. A CONNECTION THAT LASTS FOREVER.

*Palm & Grace Memorials brings families together,
no matter the distance, to honour, remember and
celebrate the lives that will always remain in our hearts.*

www.palm&gracememorials.com

Honouring Lives. Preserving Legacies.

Every life. Every memory.
Forever cherished.

ICON AND WORDMARK

Our logo consists of two key parts the Palm & Grace Memorials icon and the wordmark. Both the icon and wordmark must always be used together as shown.

Our logo represents trust, innovation, and empowerment. Always use the wordmark thoughtfully. This means wherever the logo appears, the design and material must reflect the current identity and high standards of Sanwar H Shuvo Agency.

The logo must always be used consistently across all countries, languages, and platforms without modification.

Minimum Sizing:

The logo should never be displayed smaller than 0.75 inches wide for print, or 52 pixels wide for digital applications.

The icon and wordmark must always be used together as shown.

LOGO SPECIFICATIONS

This logo is designed to express the heart of Palm & Grace Memorials through a refined hidden monogram that beautifully combines the brand's identity with its core values.

The Hidden "P" represents Palm—symbolising honour, dignity, remembrance, and the lasting tribute paid to every life remembered. The Hidden "G" represents Grace—symbolising compassion, peace, hope, and the comfort your platform provides to grieving families. The Leaf Form represents renewal, everlasting memory, and enduring legacy, reflecting that while life may end, love and cherished memories continue to grow through future generations.

The Flowing Curves symbolise continuous connection and timeless unity, representing families who remain connected across cities, countries, and generations through one lasting memorial space.

Together, these elements create a clean, timeless, and meaningful identity that perfectly reflects your mission of honouring lives, preserving legacies, and keeping families connected forever.

HORIZONTAL & VERTICAL LOCKUPS

The logo may be used in two different configurations, with the icon and wordmark arranged horizontally and vertically. When possible, use the horizontal configuration. Use the vertical configuration sparingly, when the layout lends itself to a centered orientation or horizontal space is limited.

In addition, the emblem/strike version of the logo can be used in specific cases, where the icon alone is sufficient to represent the brand without the accompanying wordmark. This configuration should be applied only when the context clearly identifies the brand and does not require additional explanation.

Horizontal Logo

Vertical Logo

LOGO CLEAR SPACE

Clear space is the area surrounding the wordmark and the Nexus icon that must be kept free of other graphic elements. For the horizontal logo orientation, maintain a clear space that is equal to the width of the Nexus. For the vertical orientation, maintain a clear space that is equal to the width of one of the shapes in the Nexus.
